

2019 ANNUAL MEETING SPONSORSHIP OPPORTUNITIES
THE SOUTHEAST SUSTAINABILITY DIRECTORS NETWORK

SSDN is a network of local government sustainability professionals in the Southeast U.S. who build capacity for community sustainability throughout the region. In 2019, over 40 communities representing 7 states will come to Sarasota for the SSDN Annual Meeting to collaborate on ways that the Southeast can lead the advancement of national sustainability.

Sponsorship support makes this crucial face-to-face collaboration possible. Annual Meeting sponsors gain exposure to key change makers who are working with their local governments and community members to create more resilient, adaptable, livable, and prosperous places. Sponsorship confers a number of unique promotional and participatory benefits, detailed below.

**Carbon
